

Barkeep – FAQ – Hardware Requirements

What hardware do I need to run Barkeep?

- **BarkeepApp** – BarkeepApp v4.11 requires **iOS** version 8.0 or later (**iPhone**, **iPod Touch**, or **iPad**). It is the only hardware that you need to run BarkeepApp. An **iOS** Device with a built-in camera will enable you to scan barcodes.

Optional Equipment:

Scanners – Optional equipment includes the **Infinea Tab** and **Linea Pro Scanners** to scan the barcodes on bottles.

Note: Not every model of the optional scanners listed above is supported by Barkeep.

Only scanners purchased from barkeepapp.com are certified to work with BarkeepApp.

Please refer Barkeep support for a detailed list of **Optional Equipment**.

Digital Scale with Bluetooth – If you would like to have BarkeepApp automatically detect the weight of partial bottles using **Bluetooth**, you must purchase a certified **Bluetooth** digital scale from barkeepapp.com. The **Escali SmartConnect** digital scale is the only **Bluetooth** scale that is designed to exclusively work with BarkeepApp. The **Escali SmartConnect** digital scale does not require an additional scanner and will work with any **iOS** Device with **Bluetooth LE** capacity (**iPad** 3rd Generation and later).

Note: There are many other models of the **Escali SmartConnect** scales available. Only models purchased from barkeepapp.com are certified to work with BarkeepApp. Other models will not work with BarkeepApp and are not supported by Barkeep. We are not able to provide assistance with or answer questions about scales purchased elsewhere.

Digital Scales with Manual Entry – If you would like to manually enter partial bottle weights into BarkeepApp, you can use any digital scale to weigh the bottles and choose the Weight Format in BarkeepApp that matches your digital scale.

Weighing Kegs – Barkeep offers the **Accuteck Keg Scale**. The scale comes with an extended digital screen for convenient use. It is designed to hold up to 440 lbs.

- **BarkeepOnline** – Is a hosted service that can be accessed from your web browser. No Barkeep software is ever installed on your PC or Mac.

Please refer to the **Barkeep User Guide** System Requirements for further details.

If you'd like to purchase the optional hardware and accessories including **Linea Pro**, **Infinea Tab**, and the **Escali SmartConnect** and **Accuteck** digital scales —
