

Other than an Apple iOS Device, what equipment do I need?

BarkeepApp does not require any hardware other than your iOS device. However, there are several optional hardware accessories that can be used with BarkeepApp to improve efficiency and accuracy.

Optional equipment can be purchased from our online store at barkeepapp.com

Optional Scanners

You have the option to purchase a **NexusConnect** or **Linea Pro** laser scanner. The **NexusConnect** connects to BarkeepApp via **Bluetooth**, The **Linea Pro** scanners have a cradle containing a magnetic card reader and laser scanner that you slide an **iOS Device** into (see below for specific devices). Scanners are useful for scanning barcodes on liquor bottles when taking inventory. However, a separate scanner is optional. You can also enter Items into inventory by name, so you don't have to scan the barcodes. And you can use your **iOS Device's** built-in camera to scan barcodes on bottles.

NexusConnect for all iOS Devices with Bluetooth LE Capacity

The **NexusConnect** will work with any **iOS Device** with **Bluetooth LE** capacity that can run BarkeepApp v. 8.0 or later.

Note: some older **iOS Devices** may have **Bluetooth LE** capacity but may not be upgradable to the latest version of BarkeepApp

Linea Pro for iPhone users

Note: All except the models for **iPhone 6e** and **iPhone 13, 14** have been discontinued by the manufacturer. The **Linea Pro** only works with the following:

| | | |
|----------------------|----------------------|------------------|
| iPhone 5s | iPhone 7 | iPhone 12 |
| iPhone 6/6s | iPhone 7 Plus | iPhone 13 |
| iPhone 6 Plus | iPhone 8 | iPhone 14 |
| iPhone SE | iPhone XR | iPhone 15 |
| | iPhone 11 | iPhone 16 |

The **Linea Pro** will not work with earlier models.

Infinea Tab laser scanners for **iPad** users.

Note: The **Infinea Tab** was discontinued by the manufacturer. Barkeep users with an existing **Infinea Tab** should still be able to use it with their **iPads**. We do not recommend purchasing **Infinea Tab** from other vendors, they will not work with BarkeepApp.

Scales

Etekciry Luminary Smart Nutrition Scale

The **Etekciry Luminary** is the **Bluetooth** scale that is designed to exclusively work with BarkeepApp. The **Etekciry Luminary** does not require an additional scanner and will work with any **iOS** Device with **Bluetooth LE** capacity (**iPad 3rd Generation** and later).

Note: There are many other models of the **Etekciry** scales available.

Only models purchased via barkeepapp.com are certified to work with BarkeepApp.

Other models will not work and are not supported by Barkeep. We are not able to provide assistance with or answer questions about scales purchased elsewhere.

Accuteck Digital Scale *for weighing kegs*

Barkeep offers the **Accuteck** digital shipping scale — it is an excellent fit for weighing kegs. The scale comes with an extended digital screen for convenient use. It is designed to hold up to 440 lbs. We highly recommend weighing your kegs to get accurate usage reports and have found this scale to work very well. It is durable, easy to use, and very reliable.

Note: The **Accuteck** is not a **Bluetooth** digital scale. Users will have to manually enter weights into BarkeepApp during an Inventory.

What about other digital scales?

You can purchase any digital scale to weigh bottles. You will need to enter the weight of bottles manually. And remember, not all **Bluetooth** digital scales will work automatically with BarkeepApp. Only the scales available via barkeepapp.com are certified to work with BarkeepApp. You also may use a larger scale to weigh kegs – the data from that scale will also have to be entered manually.

Note: If you previously purchased an **Escali SmartConnect** digital scale via barkeepapp.com, your scale would still work with BarkeepApp. The **Escali SmartConnect** was discontinued by the manufacturer and is no longer available. If you have questions regarding your **Escali SmartConnect**, contact support@barkeepapp.com

If you'd like to look at the optional hardware and accessories including the **NexusConnect**, **Linea Pro**, and the **Etekciry Luminary** and **Accuteck** digital scales

iOS Devices and Optional Equipment

| iOS Device Compatibility | | | | |
|---------------------------|------------|-------------------|------------|----|
| iPhone/iPod Touch | BarkeepApp | iPad | BarkeepApp | |
| iPhone 5s | yes | iPad Air | yes | |
| iPhone 6/6s | | iPad 5 | | |
| iPhone SE | | iPad 6 | | |
| iPhone 6 Plus | | iPad 7 | | |
| iPhone 7 | | iPad 8 | | |
| iPhone 7 Plus | | iPad 9 | | |
| iPhone 8 | | iPad 10 | | |
| iPhone 8 Plus | | iPad 11 | | |
| iPhone X/XS | | iPad Air 2, 3 | | |
| iPhone XR | | iPad Air 4, 5 | | |
| iPhone 11, 12, 13, 14 | | iPad Mini 2, 3, 4 | | |
| iPhone Pro 11, 12, 13, 14 | | iPad Mini 5, 6 | | |
| iPhone 15 | | | | |
| iPhone Pro 15 | | | | |
| iPhone 16 | | | | |
| iPhone Pro 16 | | | | |
| iPod Touch 6 | | | | |
| iPod Touch 7 | | | | |
| Android Devices | | | | no |

Note: Older versions of BarkeepApp will work on some older iOS Devices but not all features will be available. We do not recommend using older Devices — they are no longer capable of syncing with the BarkeepOnline server.

Older iOS Devices and Equipment

The manufacturer discontinued the **Infinea Tab** (for the iPad) and the **Linea Pro** for older models of iPhones, and iPod Touches. If you are using an older iOS Device and have a discontinued scanner, it should still work with BarkeepApp.

Note: We do not recommend purchasing discontinued **Linea Pro** and **Infinea Tabs** from other vendors as they may not be supported by BarkeepApp in the future.

Note: The **Escali SmartConnect** digital scale was discontinued by the manufacturer and is no longer available. Users with an existing **Escali SmartConnect** will still be able to use the scale with BarkeepApp. If you have questions regarding your **Escali SmartConnect**, contact support@barkeepapp.com

| iPhone 5s | yes | yes | | discontinued | |
| iPhone 6/6s | | | | discontinued | |
| iPhone SE | | | yes | discontinued | |
| iPhone 6 Plus | | | | discontinued | |
| iPhone 7 | | | | discontinued | |
| iPhone 7 Plus | | | | discontinued | |
| iPhone 8 | | | | discontinued | |
| iPhone 8 Plus | | | | discontinued | |
| iPhone X/XS | | | | no | |
| iPhone XR | | | | discontinued | |
| iPhone 11, 12 | | | | discontinued | |
| iPhone 13, 14 | | | | yes | yes |
| iPhone Pro 11, 12, 13, 14 | | | | | no |
| iPhone 15 | | | | yes | discontinued |
| iPhone Pro 15 | | | | | no |
| iPhone 16e | | | | yes | yes |
| iPhone Pro 16 | | | | | no |
| iPod Touch 6, 7 | | | | yes | discontinued |
| iPad Air | | | | | n/a |
| iPad 5, 6, 7, 8, 9, 10, 11 | | | | | |
| iPad Air 2, 3, 4, 5 | | | | | |
| iPad Mini 5 | | | | | |
| iPad Mini 6 | | yes | | | |

* Check with Barkeep Support for additional availability of cases for the **NexusConnect**.

Note: The **Linea Pro** require that you match the corresponding version to your **iPhone**.
