

Barkeep – FAQ – Optional Equipment

Other than an Apple iOS Device, what equipment do I need?

BarkeepApp does not require any hardware other than your iOS device. However, there are several optional hardware accessories that can be used with BarkeepApp to improve efficiency and accuracy.

Optional equipment can be purchased from our online store at barkeepapp.com

Optional Scanners

You have the option to purchase a **Linea Pro** or **Infinea Tab** laser scanner. The scanners have a cradle containing a magnetic card reader and laser scanner that you slide an iOS Device into (see below for specific devices). Scanners are useful for scanning barcodes on liquor bottles when taking inventory. However, a separate scanner is optional. You can also enter Items into inventory by name, so you don't have to scan the barcodes. And you can use your iOS Device's built-in camera to scan barcodes on bottles.

Linea Pro

iPhone/iPod Touch users

- The **Linea Pro** requires that you match the corresponding version to your **iPhone/iPod Touch** (e.g., **Linea Pro for iPhone 6th Gen**, **Linea Pro for iPod Touch 6th Gen**, etc.)
- A **Linea Pro v5** for **iPhone** only works with the **iPhone 5s** and the **iPhone SE**.
- A **Linea Pro v5** for **iPod Touch** works with both the **iPod Touch 6th generation** and the **iPod Touch 7th generation**.
- A **Linea Pro v6** only works with the **iPhone 6** and **iPhone 6 Plus**.
- A **Linea Pro v7** only works with the **iPhone 7** and **iPhone 7 Plus**.
- A **Linea Pro v8** only works with the **iPhone 8** and **iPhone 8 Plus**
- **Linea Pros** for newer models are available by special order from barkeepapp.com.
- The **Linea Pro** will not work with earlier models of iOS Devices.

Infinea Tab and Infinea Tab M

iPad users

- Like the **Linea Pro**, the **Infinea Tab** is a cradle containing a magnetic card reader and laser Scanner that you slide an iPad into. It works similarly to the **Linea Pro** described above.
- **Infinea Tab** only works with the **iPad 7, 8, 9, and 10** models.
- **Infinea Tab M** only works with the **iPad Air 4, iPad Air 5, and iPad Mini 2, 3, 4** (and soon **5 and 6**)

Etekcity Luminary Smart Nutrition Scale

The **Etekcity Luminary** is the **Bluetooth** scale that is designed to exclusively work with BarkeepApp. The **Etekcity Luminary** does not require an additional scanner and will work with any **iOS** Device with **Bluetooth LE** capacity (**iPad 3rd Generation** and later).

Note: There are many other models of the **Etekcity** scales available.

Only models purchased via barkeepapp.com are certified to work with BarkeepApp.

Other models will not work and are not supported by Barkeep. We are not able to provide assistance with or answer questions about scales purchased elsewhere.

Accuteck Digital Scale *for weighing kegs*

Barkeep offers the **Accuteck** digital shipping scale — it is an excellent fit for weighing kegs. The scale comes with an extended digital screen for convenient use. It is designed to hold up to 440 lbs. We highly recommend weighing your kegs to get accurate usage reports and have found this scale to work very well. It is durable, easy to use, and very reliable.

Note: The **Accuteck** is not a **Bluetooth** digital scale. Users will have to manually enter weights into BarkeepApp during an Inventory.

What about other digital scales?

You can purchase any digital scale to weigh bottles. You will need to enter the weight of bottles manually. And remember, not all **Bluetooth** digital scales will work automatically with BarkeepApp. Only the scales available via barkeepapp.com are certified to work with BarkeepApp. You also may use a larger scale to weigh kegs – the data from that scale will also have to be entered manually.

Note: If you previously purchased an **Escali SmartConnect** digital scale via barkeepapp.com, your scale would still work with BarkeepApp. The **Escali SmartConnect** was discontinued by the manufacturer and is no longer available. If you have questions regarding your **Escali SmartConnect**, contact support@barkeepapp.com

If you'd like to look at the optional hardware and accessories including **Linea Pro**, **Infinea Tab** and the **Etekcity Luminary** and **Accuteck** digital scales **visit our online store at barkeepapp.com**
